

► **Gaugetech Finned Cooling Tower**

Finned cooling towers protect pressure instruments during high temperature applications. Ideal for use with pressure gauges, switches and transmitters where the process media temperature exceeds the rating of the instrument.

Part Number	Connection	Pressure Rating
GTCT12	1/2" NPT M x F	6000 psi

► **P/T Plugs & Accessories**

Pressure and temperature test plugs are a necessity to today's complex HVAC systems. These provide access to process fluids and gases without disruption of the system.

- Measuring Pressure/Temperature/Flow Rate
- Sampling: Retrieve samples without disrupting system
- Bleeding: Bleed air from A/C Lines to increase efficiency
- Use of a single set of gauges to test or sample all points
- Plugs are available with brass or 304SS body materials with plug core materials of Neoprene® or Nordel® to suit the needs of the application
- 1/8", 1/4", 3/8" and 1/2" NPT male threads are available on all models
- Caps are standard on all P/T plugs

Gauge probes are used in conjunction with standard 1/4" NPT pressure gauges for testing pressures within the system utilizing the pressure/temperature plug. A standard pocket test thermometer may be used for temperature readings. Plug extensions and cap chains may be ordered as required.

Please consult our sales desk for further information on P/T plugs.
