

► **Gaugetech Finned Cooling Tower**

Finned cooling towers protect pressure instruments during high temperature applications. Ideal for use with pressure gauges, switches and transmitters where the process media temperature exceeds the rating of the instrument.

| Part Number | Connection | Pressure Rating |
|-------------|----------------|-----------------|
| GTCT12 | 1/2" NPT M x F | 6000 psi |

► **P/T Plugs & Accessories**

Pressure and temperature test plugs are a necessity to today's complex HVAC systems. These provide access to process fluids and gases without disruption of the system.

- Measuring Pressure/Temperature/Flow Rate
- Sampling: Retrieve samples without disrupting system
- Bleeding: Bleed air from A/C Lines to increase efficiency
- Use of a single set of gauges to test or sample all points
- Plugs are available with brass or 304SS body materials with plug core materials of Neoprene® or Nordel® to suit the needs of the application
- 1/8", 1/4", 3/8" and 1/2" NPT male threads are available on all models
- Caps are standard on all P/T plugs

Gauge probes are used in conjunction with standard 1/4" NPT pressure gauges for testing pressures within the system utilizing the pressure/temperature plug. A standard pocket test thermometer may be used for temperature readings. Plug extensions and cap chains may be ordered as required.

Please consult our sales desk for further information on P/T plugs.
